*PATENT PENDING*

“

*“As I developed what became the Doggie Doo All, I added other features that make it a one-of-a-kind universal dog walking implement. After using my prototypes, I realized I’d never walk my dog without one again.”*

# Meet Inventor Dr. Mike

Dr. Michael Thomann started Charlotte's 1st Full Service Mobile Clinic in 1994, providing on-site surgical and medical house calls to pet owners. In 2013 he transitioned to a boutique small animal practice in the heart of Charlotte. Dr. Mike has been creating different product ideas for 30 years, all with the intention to make life better for pet owners and their furry families.

Dr. Mike realized many walks take place not just during the day, but also during the early morning or evening when it is dark. These walks often led to frustration & safety concerns. *“I have to somehow handle empty and full waste bags, dog leash, flashlight and a smartphone while managing my dog. The constant juggling interrupted what should have been an enjoyable time with my pet.”*

A problem solver by nature, Dr. Mike worked to invent a single device to replace all the others. The Doggie Doo-All was designed from the ground up and encompasses the conveniences of having an ALL- IN - ONE device that provides a safe and enjoyable walk.

# Problem & Solution

## SATURATED PRODUCT RANGE

There are many products for walking dogs, but all serve a discrete purpose - like waste bags. None, when purchased and combined, make dog walking easier, safer and more enjoyable

## SOLUTION

The Doggie Do All is a universal device that puts every "tool" needed for walking dogs comfortably in the palm of every owner's hand.

## LACK OF QUALITY

Whether they are bag dispensers, leash grips, or pet lights, most walking accessories are poor quality, leading pet owners to purchase some version of the same product annually or not purchase at all!

## SOLUTION

The Doggie Doo All is made from the highest quality materials - aircraft grade aluminum, high-intensity ultra-bright COB LED, rechargeable lithium batteries, climb quality carabineers and universal waste bags. We understand how important our pets are and have developed a product to last their lifetime.

# Our Mission

Provide pet owners with peace of mind and convenience with practical yet innovative products.

# D<sup>OG</sup>GGIE DOO ALL!

**BE SAFE  
BE SEEN  
BE CLEAN**

Dr. Mike's Doggie Doo All has been developed for dog owners who need safety and convenience in one device on walks of any length. Designed by a licensed veterinarian who understands pet owners needs.
