80 billion memories were posted to social last year, but finding those memories is a thankless task.

Vaulted created Memory Coins to make enjoying memories simple.

**How do  
you find  
your  
memories?**

VAULTED

# Meet Memory Coins

Embedded with tap technology, they are made with durable material to attach to objects and hold memories.

A family of four is shown in a field at sunset. A woman in a green polka-dot dress is laughing and holding a young girl in a blue striped shirt. A man in a tan shirt is laughing and has his arm around the girl. A baby in a white shirt is being held by the woman. The background is a golden field under a warm sunset sky.
